Overview

AirLive CamPro Express is a simple to use digital surveillance application designed to be used as a small scale surveillance system on a standalone PC. Its main features include,

- Support 16 video channels

- Support IP cameras

- Flexible group and user administration

- eMap support

- Remote client for remote monitoring and administration

As with any software update, customers should first make sure they have adequate and current backups of their data. Customers are also urged to create a Windows XP System Restore Point before proceeding.

Purpose

1.New IP Camera integration for UPP Partner：AirLive, OvisLink Corp.

Bug Fixes In This Release

None

What's New In This Release

New IP Cameras support added: POE-100CAM, POE-200CAM, OD-300CA

Notes In This Release

1. AirLive CamPro Express does not compatible with the ESET NOD32 anti virus version 2.7, please upgrade your anti virus version to 3.0 and it is recommended to stop the anti virus while executing the AirLive CamPro Express installation.
2. Windows Vista users：
    (1)Windows Vista operation system's user control feature may interfere with the normal operation of AirLive CamPro Express application. Please go to User Accounts and Family Safety > User Accounts > Turn User Account Control on or off, then uncheck the "Use User Account Control (UAC) to help protect your computer checkbox. Restart your computer to validate the setting. For additional information of User Account Control, please go to http://www.microsoft.com/windows/products/windowsvista/features/details/useraccountcontrol.mspx

    (2)Windows Vista Premium, Business, Ultimate users: If you want to install web monitor module, please refer to product FAQ to configure the IIS7.0 setting.

1. Multi Channel Playback Function：
    (1)Recording files are played independently for each channel. Recording times are not synchronized.

    (2)It is recommended to use this function in the client side.

1. Auto Discovery Function：Only devices with UPnP support can be discovered automatically.

Installation and Configuration Instructions

Note for installing AirLive CamPro Express:

1. First time install AirLive CamPro Express, please refer to the user manual.
2. If you have AirLive CamPro Express 2.2.2 and later for AirLive CamPro Express 2.2.5 installed, you can upgrade the software directly to version 2.2.5 for AirLive CamPro Express if the same language option is selected.
