How can I configure Motion Detection with Alarm output at CamProExpress

Please refer the "How can I configure DIDO at CamProExpress" guide to setting DI/DO first

1. Select IPCAM and click "MotionDetection" then setting motion detect area.

1	🕌 Motion Detection 🛛 🔀							
SystemAdm UserGroup F-Map F-Map F-Map F-WL-2600CAM-107 VL-2600CAM-13 Sensor1 Relay1	Sensitivity: Prequency: OK Cancel							

2. Select IPCAM then click "Image Alarm".
