

How can i login to Airlive CamPro Express to see the WEB UI from internet.

1. Please Go to the control panel--add or remove programs--add/remove windows components install the IIS on the Airlive CamPro Express server

2. If the server under the NAT .
please open the TCP port 80 and 8000 and 8001 to allow WEB and video through.

The screenshot shows the router's web-based management interface. The top navigation bar includes tabs for Quick Start, Interface Setup, Advanced Setup (which is selected), Access Management, Maintenance, Status, and Help. Under the Advanced tab, sub-tabs for Routing, NAT, ADSL, and Firewall are visible. On the left, a sidebar titled "Virtual Server" contains a "Virtual Server Listing" table. The main content area displays a form for configuring a virtual server rule:

Virtual Server for : Single IP Account

Rule Index :	1
Application :	HTTP_Server
Protocol :	ALL
Start Port Number :	80
End Port Number :	80
Local IP Address :	192.168.2.100

Virtual Server Listing

Rule	Application	Protocol	Start Port	End Port	Local IP Address
1	HTTP_Server	ALL	80	80	192.168.2.100
2	-IPCAM	ALL	8000	8000	192.168.2.100
3	-	-	0	0	0.0.0.0
4	-	-	0	0	0.0.0.0
5	-	-	0	0	0.0.0.0

3. Enter the <http://server-ip/web> in the IE browser will see the web page.

The screenshot shows a Microsoft Internet Explorer window with the following details:

- Title Bar:** http://aircam.dvr dns.org/web/Basic/Src/Web/Bin/MONBAS001/MONBAS001.html - Microsoft Internet Explorer
