Q: Failed sending email using Gmail account.

A: Change the APP security settings on you Google account. Follow the below steps to make change the settings.

1. When all account data is entered correctly and you receive this message: "SMTP Server Test Failed."

SMTP Mail Server :	tp.gmail.com	Port: 587
Sender Email Address:	@gmail.com	
Receiver #1 Email Address:	@gmail.com	
Receiver #2 Email Address:		
Subject: SC	-300W	
🗹 My Mail Server Requires Authe	entica Message from webpage	23
User Name:		
User Name: Password:	SMTP Server Test Failed	. Please view Syslog for details.
User Name: Password: Test SMTP	SMTP Server Test Failed	. Please view Syslog for details.
User Name: Password: Test SMTP Requires SSL Encryption	SMTP Server Test Failed	. Please view Syslog for details.

2. Login to your Google account.

	airlive

G	My Account
Change	My Account

3. Click on "Connected Apps and Sites"

4. Go to "Allow less secure apps" and change the setting from "OFF" to "ON"

Connected apps & sites	
Keep track of which apps and sites you have approved to connect to your account, and remove ones you no longer use or trust.	Apps connected to your account Make sure you still use these apps and want to keep them connected. MANAGE APPS
	Saved passwords You have no synced passwords. LEARN MORE
	Allow less secure apps: OFF Some non-Google apps and devices use less secure sign-in technology, which could leave your account vulnerable. You can turn off access for these apps (which we recommend) or choose to use them despite the risks.

5. After you have turned "Allow less Secure apps" ON, you will be able to receive email from the camera.
