Q: I want connect GW-300NAS to another AP by WDS function. How do I know the WLAN MAC address of GW-300NAS?

A:
1. Please connect your PC toGW-300NAS and get into the web management of GW-300NAS.(Default IP :192.168.1.254)
2. Please add the "**sysinfo.htm**" after the IP address as below picture:

3. Then you will see the WLAN MAC address.
