

BU-3025/BU-3025v2 shows no image in CoreNVR split screen?

1. Please make sure **CoreNVR 9/16 F/W** version is above **2.0.0.1384**.
2. Please make sure **BU-3025 F/W** version is **1.03.13**.
3. Please make sure **BU-3025v2 F/W** version is **1.03.18**.
4. Enable the **"MJPEG"** & **"Mobile view"** in BU-3025/BU-3025v2.

The screenshot displays the Air Live web interface for the BU-3025 3-MegaPixel Outdoor 25 meter IR IP CAM. The 'Video' configuration page is shown, with the 'Video Setting' tab selected. The 'Main Stream' section is configured for H.264 with a resolution of 2048x1536 (QXGA), a frame rate of 20, and video quality set to Very Low. The MJPEG section is enabled with a resolution of 640x480 (VGA) and a frame rate of 5. The Mobile View section is also enabled, with the option '3GPP with Audio' selected. A note at the bottom states: '*One snapshot is supported when MJPEG is enabled.'
