The AirVideo-100 v2 supports to presentation on different Smartphone platforms via MobiShow(such as Android, iOS). In this Case Study will guide how to configure iPad/iPhone to display documents from mobile to big screen wirelessly.

MobiShow has support the features: PtG(Presentation-to-Go) and Photo Viewer, and we use the iOS to perform in this Case Study.

\*Note: When you use Android system, the installation is very similar as in iOS system; please use "Play Store" to download the MobiShow apps

### Part I: PtG

Step 1. Please click "App Strore" on your iPad/iPhone.

Step 2. Download MobiShow into your iPad/iPhone.
