## How to Access AirLive IP Camera on IE 11?

1. Login IPCAM by IE 11 first, then directly go "Compatibility View settings".

2. Add IPCAM IP address to Compatibility View, and click on 'Close'.

92.168.0.	195		Add
ebsites you	I've added to Compa	tibility <mark>V</mark> iew:	
192.168.0.	22		Remove
192.168.0.	64		

3. After closing Compatibility View Settings, then you should be able to access the IP Camera and view the live image normally.
