

How to upgrade your CamPro Professional to get more channels

When the software (channel) license is not enough for new coming IP camera, you need to purchase new licenses for those new IP cameras. Please contact with you reseller for buying the additional license. Or you can also send mail to campro@airlive.com for buying the additional license.

After you purchase the new licenses, you will receive a license file. (a txt type file)

And please follow the steps as below for importing the new licenses:

1. Start the Config Wizard via the desktop icon.
2. Click on the Upgrade Button in the on the Config Wizard.

3. Then the dialogue box will pop up. Please choose and import the license file you received. After importing the license, your CamPro Professional now can add the new coming IP camera
