

Q : How to do the live viewing of FishEye camera on my VLC player?

A :

**Description:** Video stream request via RTSP

**Syntax:**

```
rtsp://<server name>/<Stream Session Path>
```

**Example:**

**Stream 1:**

```
rtsp://192.168.0.200/v00
```

**Stream 2:**

```
rtsp://192.168.0.200/v01
```

**Stream 3:**

```
rtsp://192.168.0.200/v02
```

**Note:**

**Default Stream Session Path:**

**Stream 1** = v00

**Stream 2** = v01

**Stream 3** = v02
