## How to set up the AP at first time by WPS Pin code on Win7.

1. Set your Wireless network card IP address as 192.168.1.xx, submask as 255.255.255.0.

## 2. Select Connect/ Disconnect.

3. Select Airlive, and then connect.

4. Do you want to set up your network? Ok.

5. Enter Your Pin code at the bottom of your AP.

6	🕒 😰 Set Up a Network
	To set up a network, type the 8-digit PIN from the router label
	You can find the numeric PIN on a label attached to the router or in the printed information that came from the manufacturer.  PIN:
	Next Cancel

6. Enter Your Own SSID & Security key.

Give your network a name					
Your network needs a unique name so that it can be easily identified. It is best to keep the name short (2 characters or less) and recognizable.					
Type your network name:	Security-enabled network Your network is being set up using WPA2-Personal.				
Airlive.N.TOP1					
Change passphrase, security level and	encryption type (advanced):				
Change passphrase, security level and Security key:	encryption type (advanced):				
Security key:	Security level:				

7. Finished, Your AP had been set successfully.
