

How to view Camera with CamPro HD via Internet?

Ans:

1. Setting RTSP port on Camera

Setting RTSP port is 554.

Network	DDNS	PPPoE	Streaming	UPnP	IP Filter	IP Notification
RTSP Port	554	(554 ~ 65535)				
RTP Port	50000	~ 50999	(1024 ~ 65535)			

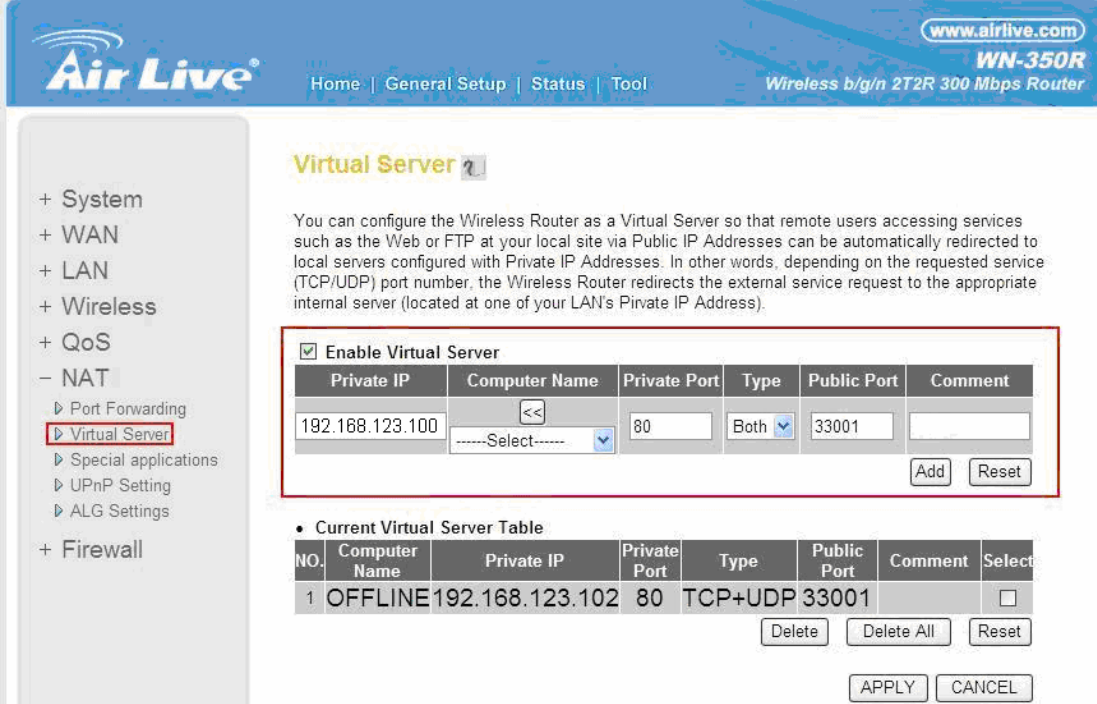

OK Cancel

2. Setting Streaming Port on Campro HD

Campro HD's Setting Streaming Port is 554.

3. Setting Campro HD's Web server on Internet.

- Select Virtual Server function on WN-350R.
- Setting Local PC (Private IP:192.168.123.100) private port:80 to Public port:33001.

The screenshot shows the web interface of an Air Live WN-350R Wireless Router. The page is titled "Virtual Server" and includes a navigation menu on the left with options like System, WAN, LAN, Wireless, QoS, NAT, and Firewall. The "Virtual Server" option is highlighted. The main content area contains a description of the Virtual Server function and a configuration form. The form includes a checkbox for "Enable Virtual Server" (checked), a table for adding virtual servers, and a table for the current virtual servers. The table below shows one entry for a virtual server with Private IP 192.168.123.102, Private Port 80, Type TCP+UDP, and Public Port 33001. Buttons for "Add", "Reset", "Delete", "Delete All", "Reset", "APPLY", and "CANCEL" are visible.

Virtual Server

You can configure the Wireless Router as a Virtual Server so that remote users accessing services such as the Web or FTP at your local site via Public IP Addresses can be automatically redirected to local servers configured with Private IP Addresses. In other words, depending on the requested service (TCP/UDP) port number, the Wireless Router redirects the external service request to the appropriate internal server (located at one of your LAN's Private IP Address).

Enable Virtual Server

Private IP	Computer Name	Private Port	Type	Public Port	Comment
192.168.123.100	<< << << -----Select-----	80	Both	33001	

Add Reset

• Current Virtual Server Table

NO.	Computer Name	Private IP	Private Port	Type	Public Port	Comment	Select
1	OFFLINE	192.168.123.102	80	TCP+UDP	33001		<input type="checkbox"/>

Delete Delete All Reset

APPLY CANCEL

4. Open video port on WN-350R

- Select Special application function on WN-350R.
- Open Campro video port(554) on WN-350R
