AirLive MD-3025 IP Camera is the latest Mini Dome camera from AirLive. It combines 3-Megapixel video, wide angle lens, power over Ethernet, ICR, excellent image quality and IR night vision into one compact size.

Mini Compact Size and 802.3af PoE

AirLive MD-3025 is a mini-dome camera, mounted on the ceiling. With only 108mm in diameter and 62mm height, it is about the half size of a standard dome camera and makes it suitable for elevators, offices, shops, home, and public areas, and even on public transportations. Its 802.3af PoE port can also let you install the device away from the power source.

3-Megapixel Resolution and MicroSD Card Recording

AirLive MD-3025 provides 3-Magapixel High Definition resolution at 25 frames per second. That means the crisp and smooth video with full details.

Ultra Wide Lens and Adjustable Viewing Angle

AirLive MD-3025 has 2.6mm (f/1.6) ultra wide angle lens that provides up to 105 degree horizontal wide angle view. While most mini dome camera's lens angle can not be adjusted due to small size, the AirLive MD-3025's lens can be adjusted manually so you can change the view after installation.

IR Night Vision and IR-CUT Removable (ICR)

AirLive MD-3025 is designed for 24hr indoor/outdoor surveillance even in the harshest conditions. AirLive MD-3025 is equipped with high resolution CMOS sensor with infrared LEDs in up to 15m working distance. The auto-changeable IR filter also provides superior day/night performance.

## Vandal Proof Housing with IP66 Waterproof Resistance

AirLive MD-3025 owns the housing which has vandal proof and IP66 rating waterproof, so it can resist the malicious attack and the harsh climate.

Two-Way Audio and DIDO Megapixel

With two-way audio feature, you have the ability to watch, hear and response remotely. Real-time over the Internet communication is simply by using the Standard Microsoft IE browser. In order to speak, all you need is microphone and speaker at local and speaker only at the remote viewing location. It also support with DIDO for external sensor and alarm.

Clear Motion Technology

AirLive MD-3025 has the Clear Motion Technology to minimize the motion blur caused by moving objects. So you can have the details where you need it.

Support WDR

When strong back light is surrounding a subject, the camera with wide dynamic range technology can adjust the intense backlight and dark area to balance the whole screen; therefore, user can recognize the details in the bright and dark area.
