## SmartCube 300W

Intelligent 3MP Wireless Cube IPCAM  
with Temperature and Humidity Sensor

### 3 Megapixel Resolution

10 times more resolution than VGA. It can also set to Full HD or 720P resolutions.

### Temperature and Humidity Sensor

Display the temperature and humidity in real-time or send you daily report. Alert you when temperature and humidity exceed or below certain value.

### Door Cam Mode

The camera can be set to operate in Door CAM mode. The camera will automatically sound a bell ring when someone is at the front door. It will send you notification so you can view and even talk with the person.

### Store Entrance Mode

The Smartcube will count the number of customers each hour and send you the daily report. It can even ring a bell or play back voice recording when customer enter your shop and store.

### Built-in Audio and Speaker

Enable 2-way voice conversation through the IP Camera.

### PIR Sensor

Detect people accurately and quickly for motion recording.

### Intelligent Video Analytics

Camera can recognize faces, set electronic fence, and count people.

### Corridor Mode

Full vertical viewing angles for installation in halls and aisles.

### ICR Nightvision

Powerful IR LED for night time recording in complete darkness.

### SD Card and Cloud Recording Backup

Record to SD card and back up videos to cloud storage.
