

Traveler 3G II

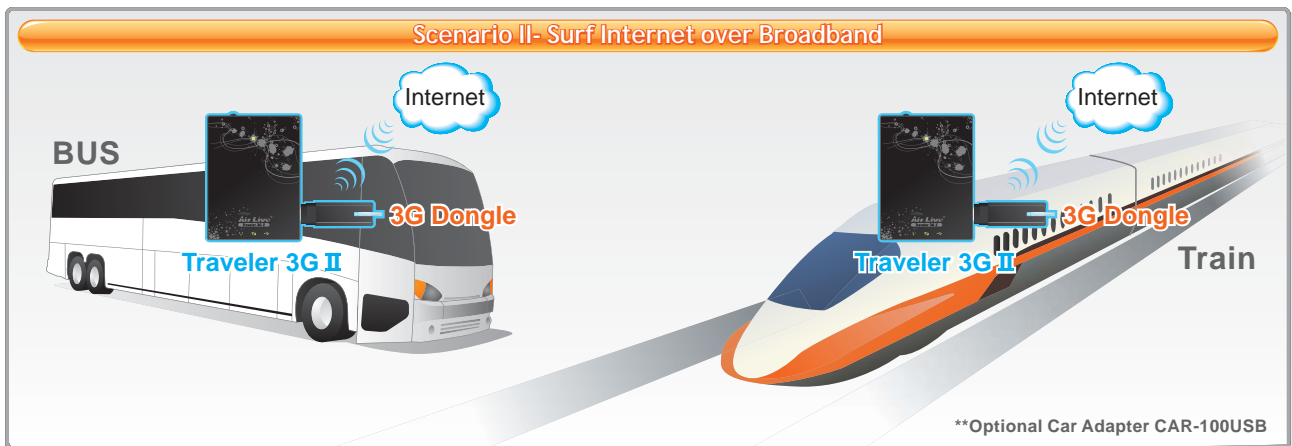

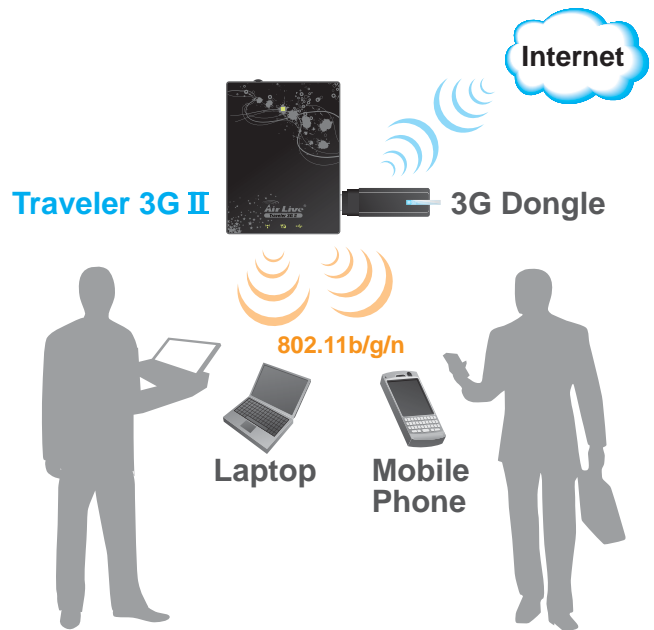

11n 3G Mobile Router

The Traveler3GII is a wireless HSPA router with USB 3G modem port. It supports NAT, routing, firewall, VPN pass-through, DHCP server, and so on. It is managed easily by web UI, SNMP and UPnP. SPI firewall is embedded in the product, and packet filtering and access control were also implemented inside. It supports various connection approaches to ISP such as static IP, dynamic IP (DHCP client), PPTP, L2TP, PPPoE and 3G. It is also compliant to IEEE 802.11b/g/n standard for WLAN. With its built-in Li-ION battery, the device can work without external power supply.

Rechargeable Battery

Built-in with rechargeable battery, user can surf Internet in anywhere for 2 hours, as long as 3G modem can receive 3G signal. When battery runs out the power, user just needs to plug in adapter to charge the battery again.

USB 3G Dongle Compatible Table

If your 3G modem is not listed in the table, please notice us the model name of 3G modem, and then we will help to verify or improve it.

The CAR-100USB is a car adapter with USB connector. It is an individual accessory for Traveler 3G. With application of it, you can easily share Internet service with passengers on the car, bus, or other public transportation without any restriction of electrical power.
