

WMU-6000FS

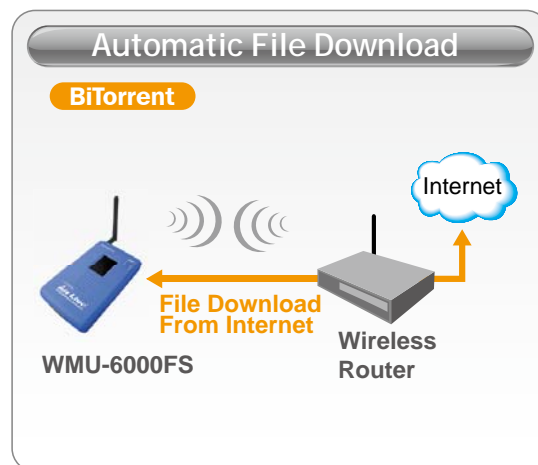

2.5" Wireless-G Hard Drive

F From the creator of the award winning WMU-9000VPN multimedia router, OvisLink Corp. introduces the AirLive WMU-6000FS. A wireless Hard Drive+Downloader that free your PC away from file sharing and file download tasks.

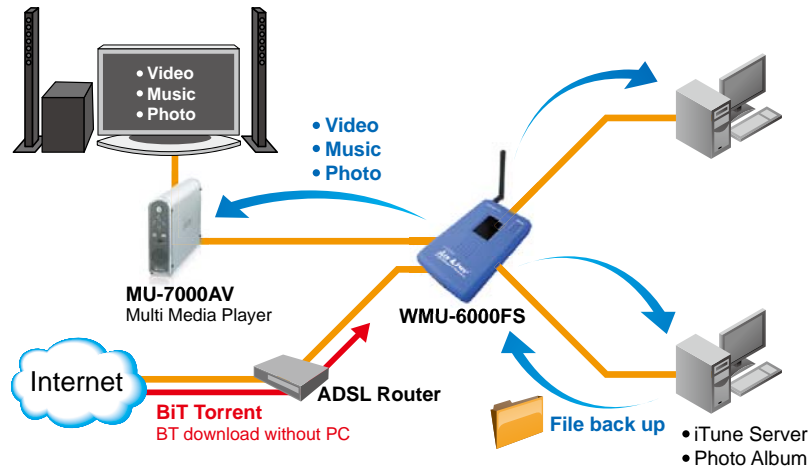

Share 2.5 inch IDE Drive Wirelessly

The WMU-6000FS is a wireless file server with one 2.5" Hard Drive bay and 2 USB 2.0 ports. Therefore, you can install any 2.5" IDE Hard Drive and share it instantly on the network. Users can use My Network Place to access the Hard Drive. Even set it as a network Drive. Even set it as a network Drive. So you can save or read files directly. The WMU-6000FS can set username and password to limit access only to certain users. Best of all, Internet user can access the device through standard FTP client.

Download Agents with QoS

In addition to wireless file sharing, WMU-6000FS comes with Internet Download Agent*. It supports Bit Torrent format. You can even limit the download and upload speed so the download agent won't take away your entire Internet bandwidth. Now, you can free the downloading task to your WMU-6000FS.

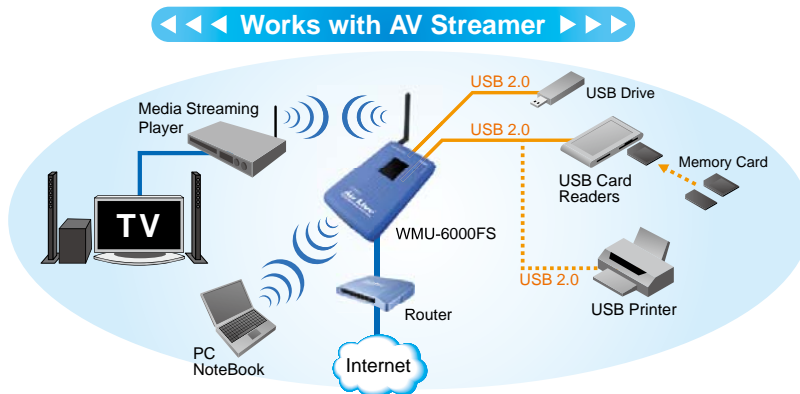

USB 2.0 Ports

If you want to share your USB storage or Memory Card quickly. You can use the built-in 2 x USB 2.0 ports. Simply connect your USB pen drive or Card Readers, then the WMU-6000FS can share the data on the network using Samba function, or share it on the Internet using FTP function.

Perfect Companion to Digital A/V Streaming

The ultra fast IDE throughput of the WMU-6000FS makes it a perfect companion for your A/V Streaming Media Player. You can simply download any audio and video clip directly into the WMU-6000FS. Then your A/V Streaming Player can play the audio/video from WMU-6000FS directly. At the amazing 48Mbps throughput, you can play any MPEG, MPEG2, MPEG4, RealAudio, QuickTime, and other video files fast and smoothly.

* Please do not use the download agent to download illegal software.
