## Install Your Wireless Camera With WN-350R

Airlive WN-350R meets the demand of bandwidth intensive applications such as HD camera video streaming

## Support Green WLAN for smart Tx power saving, Implicit Rx power saving and CPU offload.

Traditional networking devices transmit at 100% full power, regardless of the user environment. In real user scenarios this amount of power is rarely required. Airlive automatic power-saving technologies enable solutions that conserve energy by recognizing the actual user scenario and adjusting the power accordingly in relation to distance, data traffic, and link status, and with no loss of performance.

## Protect Your Network with AirLiveGuard

Wireless Security has always been a concern for most users but now you can forget about it and let AirLiveGuard protect your network for you.

**Access Control**

Access Control allows users to define the traffic type permitted or not permitted in your LAN. You can control which PC client uses what services in which they can have access to these services. If both of MAC filtering and IP filtering are enabled simultaneously, the MAC filtering table will be checked first and then IP filtering table.

Enable MAC Filtering  Deny  Allow

Client PC MAC address	Computer name	Comment
<input type="text"/>	<< Select >>	<input type="text"/>

Add Reset

**MAC Filtering Table**

NO.	Computer name	Client PC MAC address	Comment	Select

Delete Selected Delete All Reset

Enable IP Filtering Table (up to 20 computers)  Deny  Allow

NO.	Client PC	Client PC IP address	Client Service	Protocol	Port Range	Select

Add PC Delete Selected Delete All

Apply Cancel

**Security Settings**

This page allows you setup the wireless security. Turn on WEP or WPA by using Encryption Keys could prevent any unauthorized access to your wireless network.

Encryption: WPA pre-shared key

WPA Unicast Cipher Suite:  WPA(TKIP)  WPA2(AES)  WPA2 Mixed

Pre-shared Key Format: Passphrase

Pre-shared Key:

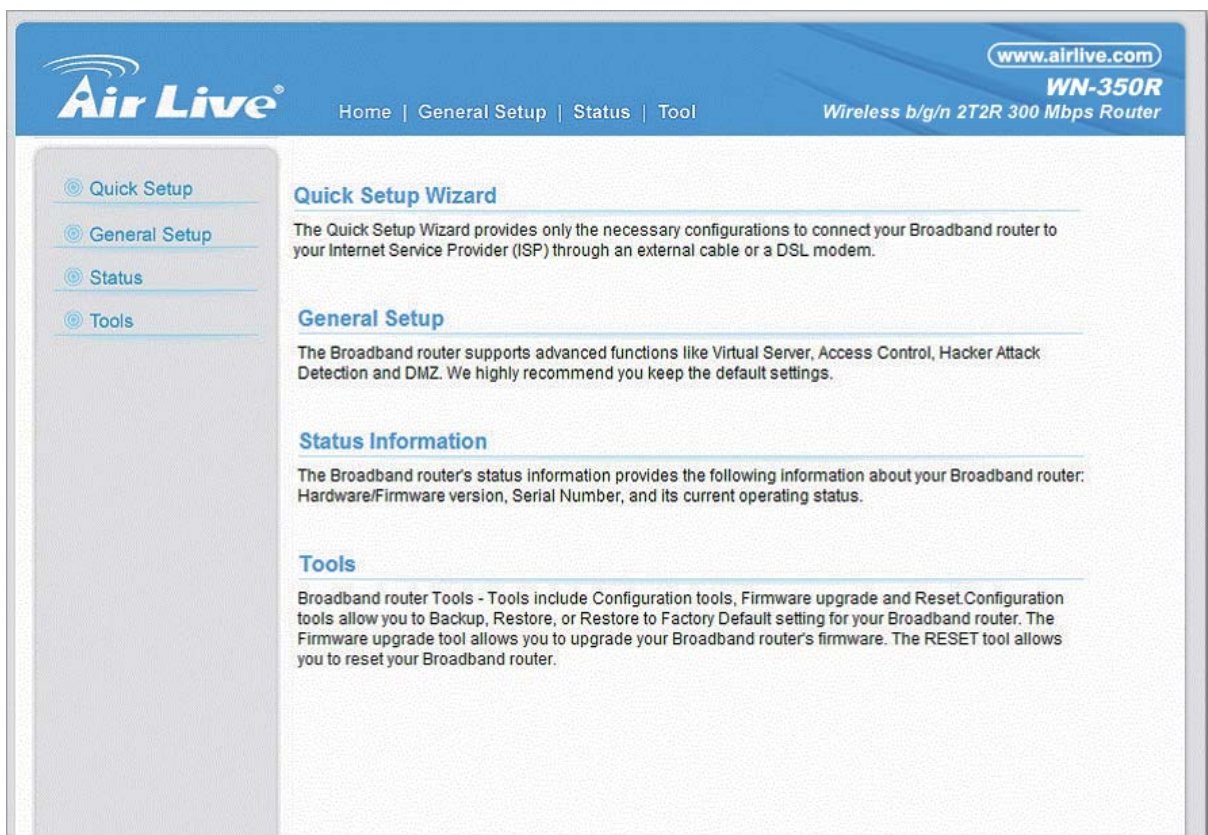

Apply Cancel

## Removing off Complicated configuration for IPCAM to Internet Router

The WN-350R is a TRUE plug n play Router for wireless IP cam with that can be installed in less than 5 seconds with no network configuration required. No ip address settings or port forwarding is needed to connect to the camera, even from a remote location. Just type the ip address to your IE with AirLive WN-350R Router, you can remote monitor your ipcamera. Simply enter the supplied username & password and you will be connected to your live video. Thats It!.

### Specifications

#### Flash + SDRAM

- 2MB Flash + 16MB SDRAM

#### WAN Port

- 10/100M UTP Port x 1 (Auto MDI/MDI-X)

#### LAN Port

- 10/100M UTP Port x 4 (Auto MDI/MDI-X)  
- Support DHCP Server/ Client/ Relay  
- Support Static Routing/RIPv2

#### Frequency Band

- 2.4000~2.4835GHz (Industrial Scientific Medical Band)

#### Data Rate

- 11b: 1/2/5.5/11Mbps  
- 11g: 6/9/12/24/36/48/54Mbps  
- 11n (20MHz): MCS0-7, up to 144Mbps  
- 11n (40MHz): MCS0-7, up to 300Mbps
